PROPERTY MANAGEMENT REPORT 2024

Updated 9/21/24

General Maintenance / Communications:

- Ontime continued above required visits to the hill and responsive communications between designated trustees & Ontime throughout the year, as well as thru the closing and opening process of the cottages.
- Extra diagnosis & coordination time with electrician to fix electrical issue effecting storage room and upper driveway exterior light issues. This included digging trench for new underground line to be laid.
- Coordinated with Prop Mgt team and FA Days to get gas pipe leak repaired asap in early spring when discovered – repaired before end April
- Communication with new SLW #6 neighbor, Anson, early spring with issues effecting 2nd landing way – ie. trash, abandoned car, septic concrete materials etc. All resolved .
- Dryer vent moved up to higher location to prevent blockage, (originally located low behind shed with sand build up).
- Additional work in garbage area flooring for stability holding large trash barrels, again preventing animal issues in area .
- Continued good general upkeep, responsiveness to areas/ issues and emergent repairs as needed throughout year, ie. small walkway repairs, handrail, steps, seat, repairs, lighting etc.
- Continued extra landscape work in areas of emphasis: parking areas, down to beach, other communicated areas.
- Continued responsiveness to high wind events and prompt communications as needed.
- Continued ongoing communications regarding ongoing issues and future areas of concern for both maintenance and/or Special Project designation.
- **Special Project:** Early spring '24 completion of new walkway section running up to and behind #6.

Closing '23 / Opening '24:

- Successful closing of Cottages and on-time opening of most cottages by April 15th goal date. SLW slightly delayed due to need of gas pipe repair – opened before end April.
- Successful communications and coordination with Margaret & Liz as designated trustees, plumber, electricians, FA Days, Well-Tapped (new H2o testing company), etc.
- Successful scheduling of/coordination with FA Days for gas pressure checks of main systems and into individual cottages – one leak found before shut off to SLW8. Was identified and repaired.
- Effective and timely communications between Ontime, Margaret & Liz and various owners as needed to relay information and communicated, assist with needed small fixes, etc.
- Majority of issues/repairs were again resolved seamlessly by Tony and/or plumber on-site within opening week; minimal or no charges to individual owners.
- Tony &/or plumber were again able to repair minor association issues on the spot; with no additional charges to CHCCA
- Communication & coordination with Prop. Mgt Team (MG & Liz) and/or owners around their timelines of leaving their cottages, outside contractors on-site, etc.

REMINDERS:

1. Please continue to communicate with either MG and/or Liz regarding any input, requests, or suggestions for Tony & Ontime Property Mgt team that are CHCCA related.
2. Individual cottage / Non -Assoc. requests to Tony/Ontime should be communicated directly to Tony – with preface that it in NON-association. As noted in previous years, it then becomes a private transaction between individual owner and Ontime.
3. Please continue to inform MG and/or Liz when you have an outside contractor and/or property mgt service on-site – especially important in off season. MG/Liz will make Tony aware avoiding any unnecessary issues or concerns.

Smooth year
Tony (Ontime Property Mgt) / Margaret / Liz
